

MCWP SAFETY TIP SHEET

TO BE USED IN CONJUNCTION WITH ALL OTHER APPLICABLE SAFETY RESOURCES

In the continued interest of safety and to support our clients, Klimer Platforms would like to review with you some important safe operating practices. Please review this document with your site supervisors and safety supervisors.

QUESTIONS FOR THE SUPERVISOR/FOREMAN TO ASK THE MAST CLIMBING WORK PLATFORM OPERATORS PRE-USE

1. Where is the operators manual?
2. Can we see the daily inspection record?
3. What are the allowable loads for this particular configuration?
4. Is there a drawing or site specific load chart if required?
5. Do the operator's have the necessary training?
6. Do we have the most recent maintenance log?

TIPS FOR WORKING SAFE

- Ensure operation, installation and dismantle are only performed by trained, competent personal.
- Perform daily or pre-start inspection of equipment.
- Ensure you have the appropriate resources on site including daily checklists and operators manuals with your machines.
- Ensure all operators have received appropriate operator training and are familiar with their responsibilities.
- Your equipment is installed in accordance with the operator's manual and site specific installation drawing if applicable.
- Ensure to pay attention to maximum load and load distribution during operation.
- Your equipment is dismantled in accordance with the operators manual, ensuring to pay particular attention to maximum load and load distribution on the dismantle.

PLEASE FORWARD THIS TO YOUR APPROPRIATE SITE PERSONNEL OR ANYONE WHO YOU BELIEVE MIGHT BENEFIT FROM WORKING WITH US TO ENSURE CONTINUED SAFETY.

If you would like to request training or an inspection or support please send an email to your sales representative or email safety@klimer.com with your contact information and specific request. We are committed to responding to your replies as quickly as possible.
